knives in drawers or wallracks with handle forward and out of reach children. Wash and dr them separately, keeping the sharp edge away from hands. A common injury is cutting a finger while grating food. By wearing washable work gloves and using a grater with drilled rather than punched holes, injury can be prevented in most

cases.
Cooking pots should be well balanced so they will stand without tipping. The should have firmly attached handles that will not get hot. Chipped, cracked or rusty pots should b thrown out because they as dangerous. When cookin keep pot handles turned so that there is less chanc of spilling and less chance of small children grabbing If grease or fat catches fire, smother it at once with a metal cover or pour lots of salt or baking pow-

der over the flame. Never use water on a grease fire because it will spread the It's a good idea to keep a small fire extinguisher in a handy place near the kitchen in case of an emergency. OKRA

Okra is one of th vorite vegetables county. It is used in ways--fried, boiled, led and in soup mi Okra should be har the stalk, it will quit h ing. If you are going pick the okra so it will keep bearing. During periods of humidity and rain, we hea complaints that okra pods

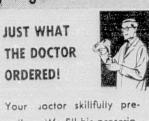

Armour

Potted Meat

rot and don't fill out. Us ally, the bloom sticks firmly to the young pod and all of it rots. Normally this will stop when the weather gets dry and the humidity is lowered. If okra sheds most its leaves and begins to be stunted, there is a good chance that nematodes are present. Pull up such plants and look at the roots. If they are badly shaped and have knots all over them you will know you have nematodes. Areas where nematodes are present should be treated before planting the crops an-All garden other year. nematodes.

CHEVY'S NEW LITTLE CAR IS OPEN

We also call it "the little car that does everything well Because it does.

Everything? Everything. Vega moves well, stops well, steers well, rides well, handles well, responds well, passes well, travels. well, parks well, wears well, and is priced well under what you'd expect to pay for such a talented little car. In our highway tests, Vega has been getting gas mileage in the neighborhood of the little imports, which isn't a bad neighborhood.

Yet unlike your average little car, ours steps right out when you step on The engine is a specially designed overhead cam four with a lightweight aluminum alloy block. It turns slowly and quietly at turnpike speeds, with

Disc brakes are standard in the front. So are bucket seats, except on

How we doing so far? Numbers speak louder than words. The wheelbase is 97 inches. Total length is just under 170 inches, or nearly four feet shorter than

Width: a nice stable 51/2 feet. Weight: 2,190 lbs. for the sedan. Engine displacement: 140 cubic

David, Joel and Nancy.

MRS. BROWN RETURNS FROM VACATION

Fuel economy: about 25 mpg, with the standard engine and transmission, in our highway tests. Horsepower: 90. You can order 110. (80 and 93 hp, SAE Net.) Seating capacity: 4 adults.

What it all adds up to is a lot of Three cars and a truck.

Vega turned out so well that we couldn't turn out just one. So we're turning out four: the sporty little hatchback coupe shown open and closed in the foreground below; the sedan, on the right; the Kammback wagon, on the left; and the little panel truck, in the rear. Oh, and a special GT version of

the coupe and wagon which we'll show you later on ieptember 10th is Opening Day. All 6,300 Chevrolet dealers are handling Vega, so you shouldn't have to go very far to see and drive one. Chevy's new little car is open for

************************ WHY Lafoy McMILLAN CAN COUNT ON

I'm glad I had the first Lilliston Turnover Shaker in my area, because it saved a lot of peanuts for me last year when my windrows were too wet for combining for two weeks.

"Since they were inverted, the water had little effect on the peanuts, and they were easy to combine.

"My overall yield was about 3,200 pounds per acre. "My Lilliston 1500 Combine has been doing a fine job for me, too. I can adjust it to handle a wide range of picking conditions and it gets them clean.

"I've been using Lilliston peanut harvesting equipment for a long time in my operation and find that I can count on it."

Sprightly Vega Hatchback Coupe

This distinctive four-passenger coupe model of Chevrolet's new 1971 Vega 2300 economy car has wide combination rear window and rear deck that swings up for easy access to the rear compartment and a fold down rear seat for extra cargo room. This is one of four Vega models. Vega's individual styling will be continued for at least four years. Roomier and better handling than usual economy cars, Vega has a new, domestic-built lightweight overhead cam engine to fill performance needs of American drivers. It gives impressive fuel economy and low emissions. Among "firsts" in economy cars are Vega's power-flow interior ventilation, comfortable molded foam seats and steel side-guard beams in the doors. Vega models go on sale in Chevrolet dealerships on Thursday, September 10.

Kammback wagon in new Vega line

Blackmon, aunt of the bride, Mrs. Bill Thompson, new resident of Elba, and Miss Becky English, bride-elect.

Mrs. King led the guests into the gift rooms to view the many expressions of best wishes received by the bride. Miss Debbie Easters asked each guest since the bride. Executive Says Listen to Youth vith young people, according to Robert G. Welch, president

Walking Is Old And Dangerous New Decorating Ideas Form Of Transportation

day it is becoming one of the most dangerous modes. One out of every five motor vehicle accidents involves a person on foot. The pedestrian is the slowest moving creature using our streets and roadways. He is very ill equipped for a battle with a machine hurling itself at him with terrific speeds. Yet all of us are pedestrians at times -- when we step out of our car, step off a bus, or venture to cross a street. In 1969, one nundred ninety-six pedestrians died in accidents in Alabama and hundreds of others were hopelessly crippled or disfigured to spend their lives suffering from

Children between the ages of one and fourteen are our prime targest with the six-year old youngster struck most often. More boys are hit than girls and more whites than non-whites. Most children are struck near their own homes. Residential streets incur most pedestrian accidents than the mainthoroughfares. The cause of the largest number of child pedestrian accidents is running into streets from between parked cars. Remember the child waiting on the side of a road for a school bus is a pedestrian. Expect the unexpected from youngsters moving along a roadway. Accidents usually occur when the unexpected suddenly

Be aware of speed and stopping distances, Reaction time is important and good vision is vital. Remember that seconds count in an emergency. Visibility at night is most important. As darkness overpowers daylight retro-reflectives must be worn or a light carried by the pedestrian. These retro-reflectives return light back to its original source. They are many times more brilliant than white clothing. These materials can be purchased at hardware and auto accessory stores. Major department stores will have outer garments already trimmed with reflectorized tape. Choose well for your family with the long winter nights ahead. Reflectorize for safety.
